

EL ALAOUI OUMAIMA

Software Engineer

📍 Rabat, Morocco | ✉ elalaouioumaim546@gmail.com | ☎ +212-611-876594 | in Oumaima El ALAOUI

Profile

Software engineer with experience designing and delivering modern .NET microservices in fintech environments. Skilled in clean architecture, distributed systems, API design, and cloud-based deployments. Comfortable working autonomously, taking ownership of systems end-to-end, and contributing to technical direction. Fully remote-ready.

Professional Experience

- Software Engineer**, B3GTechSept 2024 – Present
 - Designed and delivered backend financial services for digital wallet and banking applications using C#, .NET 8, and ASP.NET Core.
 - Architected and implemented microservices following clean architecture and contract-first API design principles (OpenAPI 3.0).
 - Worked with distributed systems using RabbitMQ for event-driven communication and Redis for caching.
 - Deployed and maintained services in containerised environments using Docker and Azure DevOps CI/CD pipelines.
 - Acted as technical lead for new services, collaborating directly with clients and stakeholders to translate business requirements into scalable solutions.
 - Mentored interns and contributed to engineering knowledge sharing across the team.
- Software Engineering Intern**, B3GTechFeb 2024 – Aug 2024
 - Developed an interbank and telecompensation transfer module (batch processing of outgoing/incoming files with partner banks).
 - Contributed to a mobile banking cash availability feature with full test coverage.
 - Applied TDD and Clean Architecture principles throughout development.
- Freelance Developer**May 2023 – Nov 2023
 - Built a full-stack tourism platform independently. (Node.js, React.js, PostgreSQL)
- Development Intern**, Regional Office for Agricultural Development, OuarzazateJul 2022 – Aug 2022
 - Developed a mobile training management application. (Flutter, Firebase)

Technical Skills

- Backend & APIs:** C#, .NET 8, ASP.NET Core, Java, Spring Boot, Node.js, REST APIs, OpenAPI 3.0
- Architecture:** Microservices, Clean Architecture, Event-Driven Architecture, Distributed Systems
- Cloud & DevOps:** Azure DevOps, Docker, CI/CD Pipelines, Git, GitHub, RabbitMQ, Redis
- Databases:** SQL Server, PostgreSQL, MongoDB, MySQL, Firebase
- Testing:** NUnit, TDD, Functional & Technical Testing
- Additional:** React, Angular, Flutter, Python, C/C++, Postman

Education

- Software Engineering Degree (Diplôme d'Ingénieur d'état)**2021 – 2024

Moulay Ismail University – FST Errachidia
- University Diploma in Mathematics, Computer Science & Physics**2019 – 2021

Moulay Ismail University – FST Errachidia
- Baccalaureate in Physical Sciences (French option)**2018 – 2019

Sidi Daoud High School, Ouarzazate
