

EL ALAOUI OUMAIMA

.NET Software Engineer

Rabat, Morocco | elalaouioumaim546@gmail.com | +212 611 876594 | Oumaima El Alaoui

Profile

Software Engineer specializing in .NET and C#, with hands-on experience designing and delivering cloud-native microservices and REST APIs in production environments. Comfortable working across the full development lifecycle in Agile teams, from architecture and API design to containerized deployment on Azure. Quick learner with a genuine passion for software engineering and emerging technologies including GenAI.

Professional Experience

Software Engineer, B3GTech Sep 2024 – Present

- Designed and delivered backend microservices and REST APIs in C# / .NET 8, owning services end-to-end from contract definition to containerized deployment on Docker.
- Acted as API Designer and technical lead, defining contract-first APIs with OpenAPI 3.0.3 and standardized error handling across a distributed microservices ecosystem.
- Led the redesign of a low-code platform architecture, improving scalability and maintainability of backend services.
- Collaborated directly with client business experts to understand their requirements and translate them into tailored technical solutions.
- Managed CI/CD pipelines and source control workflows using Azure DevOps and Git.
- Mentored interns and contributed to knowledge sharing within the team.

Software Engineering Intern, B3GTech Feb 2024 – Aug 2024

- Developed a money-transfer module integrated into the core banking platform using .NET and clean architecture principles.
- Contributed to a mobile banking feature, applying TDD and unit testing best practices.

Education

Engineering Degree in Computer Engineering Sep 2021 – Jun 2024

Moulay Ismail University – FST Errachidia

DEUST in Science and Technology (Mathematics – Computer Science – Physics) Sep 2019 – Jul 2021

Moulay Ismail University – FST Errachidia

Baccalaureate in Physical Sciences (French Option) Sep 2018 – Jun 2019

Sidi Daoud High School, Ouarzazate

Skills

Core: C#, .NET 8, ASP.NET Core (MVC / Web API), REST APIs, OpenAPI / Swagger, SQL Server

Cloud & DevOps: Azure (Container Apps, SQL Server, Application Insights), Docker, Azure DevOps, Git & GitHub, CI/CD pipelines

Architecture: Microservices, Distributed Systems, Clean Architecture, Contract-First Design, API Gateway

Databases: SQL Server, PostgreSQL, MongoDB, MySQL

Testing & Messaging: Unit Testing, Integration Testing, RabbitMQ, Redis, Postman

Additional Exposure: Java / Spring Boot, Node.js, Python, Angular, React, Blazor (learning)

Languages

- **Arabic** — Native
- **French** — Professional Working Proficiency
- **English** — Professional Working Proficiency
